The Bremmekamp Family

Lunch at 12:00 p.m. Sale at 1:00 p.m.
At the Agricultural Barn in Mayerthorpe, Alberta

Welcome to our 11th Annual Sale

We wish to thank all of our customers for their past support and hope you have been pleased with the cattle you have purchased from our program. Our sale has a very strong showing of repeat buyers and that is very encouraging for us!

What a fantastic year this has been for the beef industry! The Simmental breed is definitely the one to use to help your ranch build those big, meaty calves that are in top demand right now and we hope our bulls and heifers that join your herds will bring more of that. We have many Fullbloods, both Polled and Horned and Purebreds both Red and Black, all Polled, this year. All the bulls and heifers have been halter broke, the bulls are semen tested and guaranteed. The off-age bulls were kept specifically for this sale. We select our bulls and heifers from our herd of 350 registered cows and focus on sound feet, good udders, performance, longevity and temperament. Halter breaking helps us to make sure the bulls are willing to be handled and we find it is definitely worth the work involved. All of our calves are grown on grass with no creep feeding. Swantewitt Ranch is located on the west side of Shiningbank Lake, between Edson and Whitecourt Alberta. Call us anytime or drop by for a coffee to view our herd and see some beautiful Alberta country.

Gerd, Donelle, Justine, Jordan and Darian Bremmekamp, Swantewitt Simmentals
Email: swantewitt@gmail.com www.swantewittsimmentals.com

Sale Day Phone: 780-786-2257 • Gerd's Cell: 780-712-2096
Donelle's Cell: 780-712-3496 • Darian's Cell: 780-218-8866

WEAN DATES: All yearling and bull weaning weights (WW) were taken September 29, 2014 unless otherwise stated. All heifer weaning weights were taken October 12, 2014. YW means yearling weight. FBFF: Full Fleckvieh is 5 generations or more of Fleckvieh Breeding.

DELIVERY: Option A: Purchases can be taken home sale day and a \$50.00 discount will be taken off of purchase price.

Option B: Purchases will be delivered within 200 km of Mayerthorpe at no charge, points further than 200 km will be charged at cost.

Option C: Yearling Bulls can be cared for until April 1, 2015 free of charge, after April 1st there will be a charge of \$3.00/day. Heifers should be taken/delivered on or soon after sale day. It is recommended that the 2 year old bulls are taken/delivered in a timely manner due to the difficulty in managing these mature bulls after they return to the farm.

SEMEN TESTING:

All bulls selling at this sale over the age of 12 months will be semen tested by a certified veterinarian.

Here's a chance at some really neat genetics - full brothers out of a black AI bull who's really hot in the Simmental industry right now. Ultimate Choice is a flush brother to the \$86 000 high selling bull at Wheatland's 2012 bull sale and known for high weaning and yearling weights. The dam is a blaze face half fleck 1650 lb cow with Prime Cut's signature tight udder and the fleckvieh growth and thickness. Multiple generations of our breeding, with many daughters in our herd, these are tried and true genetics. Two very similar bulls here, double polled, take your pick and you can't go wrong!

LOT #3 SWANTEWITT JKB BLAZE 10B

One of Jordan's bulls, Blaze is a thick, long bodied AI calf that brings some new genetics to the table. He is out of a nice, moderate sized female with an excellent udder and good walking feet. She is solid bodied with a gentle disposition. Identity is known for his calving ease and lower birth weights. Lots of growth, performance, double polled and an all-around strong package in this bull.

S: Double Bar D Make M Piled	D: MS DD&E Star Gazer 21B
Grinalta's Class Act 11K	BSBL 7Z

Sting is a liver red, solid bodied, polled fleckvieh bull who we decided to use on some of our purebred cows this year because of his consistency in throwing quality cattle. This is a great opportunity for some red factor outcross genetics. His bulls have frame, growth, testicle development and style and his daughters carry excellently structured udders, sound legs and femininity. You'll notice in his sons that they keep the red factor colouring and the desired smooth poll, but reach back into the thickness, growth and muscling of some very old fleck genetics on his dams side. Sting is a powerhouse of a bull, breeding between 30 and 60 cows yearly for us in the past 5 years in addition to going to work breeding at co-owner Tony Wolfe's farm. We were so happy with this cross that we bred another group of purebred cows to him again last spring.

Swantewitt Purple 8P

X Rock is a homozygous polled bull we selected to keep for our own use and is a great herd bull. He has some different genetics for our farm on the dams side, with Big Sky and Magoo in her background. The dam has always produced beautiful calves, and X Rock always stood out to us. His sire, Skors Prime Cut was a real powerhouse, thick, smooth, with lots of growth and produced some great daughters that we have in our herd. We are really pleased with this bull and will get his fourth calf crop in 2015.

 Lake Isle Miss 5B

Now here's a bull that really catches your eye when you walk into the pen. He's smooth, well made, liver red, big testicled and out of a cow that we love. Rebecca 126R was Darian's 4-H cow, she's had 4 bulls go through past sales and we've kept every heifer of hers with Darian regularly trying to steal them off of me. This line is consistent for producing heavy milking, even tempered animals with loads of growth and muscling. It doesn't matter what we breed this cow to we always get top quality animals out of her. Sired by Sting 184W, a combination of old fleckvieh lines with newer genetics and the polled factor, he adds that desired dark pigmentation, big testicles and the ability to go out and breed a big group of cows. Balok carries the polled genetics and has all the added attributes you want in a bull.

Canadian Neff

BRG Driver H880

Dora Lee Native Son

MFI Petra 123M

R.H. Patricia

MFI Petra 30J

Driver is a bull with all the right qualities. Smooth moving, exceptionally sound footed, and he walked across the scale at over 2500 lbs this fall. Out of the Native Son bull who bred until age 11 and MFI Petra who is still on the farm at 13 years of age, this line has some outstanding longevity. We purchased Petra out of MFI's 2009 dispersal. She's the kind of cow you don't come across very often, incredible foot structure and udder tightness for her age, and each year she has produced top end calves. We kept Driver and her 2012 bull calf for use in our own herd and her 2013 bull calf is in this sale. Driver produces well balanced, long, smooth calves with loads of growth. His heifers have size and muscling but still possess femininity and his bulls have that smooth thick topline with a little extra in the rump and neck.

SWANTEWITT DRIVER 287Y

Bell C&B Western 2nd
K2 Andrea 6C
Klondike Audrey

M-Ridge Cleo 130C
Holmen Bettina 212F
M-Ridge Brittany 212B

Aztec has a pedigree that we love! The dam is a direct daughter of MFL Eddy, a bull we used heavily on our farm and found very few faults in. When the vet would come to semen test he always knew which bulls were out of Eddy because they tested superbly. Longevity here, Bettina 212F produced until 16 and Eddy bred until age 11.

HEIFERS

LOT #62 SWANTEWITT BLING 58B

Polled, Purebred

BWT: 91 LBS WW: 660 LBS DOB: Jan.29/14

FR Rezult	Twin-Chief Prince 203P
KS Bravado P68	Twin-Chief Wyoming 28W
RIV Red Brigadia 969J	Twin-Chief Spicey 28S

Remington Red Label HR	CNS Dream On L186
RRS Desi 202T	Swantewitt Starburst 13S
LFE Lucy 174P	Swantewitt Petska 14P

We had five Lewis 378W daughters this year that were absolute peas in a pod so we decided to keep two for ourselves, one for Justine and to put two on offering in the sale. Bling is one of those squat, feminine, fancy heifers. Smooth topline, loads of hair, dark colouring and out of a line of cows that we don't have an easy time parting with the offspring of. Wyoming is a real production bull and this, as well as lot 63, is a heifer you don't want to pass by.

LOT #63 SWANTEWITT BUTTON 42B

Polled, Purebred

Swantewitt Flower 35G

Southholden Lockey 28L

Swantewitt Stella 35E

Blossom is one of those deep bodied, easy moving heifers you love to have in your herd. The granddam Flower 35G produced 8 daughters for us over her many years - these are proven genetics. The grandsire TNT Gunner is an AI bull that we used, and even used a son as our herd bull for a number of years. His calves had spunk, some of the fastest to be up and sucking. Wyoming produces consistent, top quality offspring.

LOT #68 SWANTEWITT BERRY 276B

Great Guns Franzel

Anchor "T" Barbi 46K

Swantewitt Winnifred 41W

Anchor "T" Ilse 10E

Swantewitt Remembrance 82R

A heifer that I had a really hard time parting with, Barbi is a really great combination of new and old genetics. Shareholder, Franzel and Titanic right in there with the Romano bull. Barbi has the best temperament in the whole pen and was Darian's favorite during halterbreaking time. Barcelona's first heifer crop calved out on our farm this year and we were impressed with the group of them, top producers, easy calvers, and a consistent bunch. You just can't go wrong buying one of these Barcelona daughters.

MFI Petra 30J

Swantewitt Veronica 80L

Brooke is the only Driver daughter on offering. The dam and granddam have excellent feet and udders with loads of milk coming from the great granddam Nera 20N. This cow family is loaded with thickness and depth of body. Drivers dam, MFI Petra, is also a thick, deep bodied, well uddered, sure footed cow so you pretty much have a guarantee of the cow Brooke will mature into.

Terms & Conditions

Funds at par immediately following the sale. The right of ownership shall not pass until after settlement is made. All settlements must be made before any livestock will be released.

ABSENTEE BIDS: Mailed or telephone bids shall be handled in the most confidential manner, if you are unable to attend the sale in person.

PURCHASERS RISK: Each animal becomes the risk of the purchaser as soon as it is declared sold.

ANNOUNCEMENTS: Any announcement made from the auction block takes precedence over the printed matter in our catalogue

Certificates of registry and transfer on each bull shall be provided by the seller to the buyer without charge after settlement has been made.

BREEDING GUARANTEE: The seller warrants clear title to and the right to sell each bull offered for sale. All bulls offered for sale are warranted to be sound, however; the seller is not responsible for damage caused by foreign objects after the bull has been sold nor sickness that was not apparent at the time of sale. In the event of a dispute, the sellers are responsible only to the extent of the purchase price of the said

animal. We assume no liability, legal or otherwise, to make any further compensation to the buyers.

BREEDERS GUARANTEE: We the sellers have done everything possible to assure you, the buyer, that every bull in this sale will be a breeder. However, should a problem arise, please inform the seller so the problem can be solved. The purchaser shall have six months from the date the bull reaches fourteen months of age to report in writing to the seller that the bull is a non-breeder, providing of course, that the bull has been maintained in satisfactory breeding condition.

Each consignor will have six months to prove the bull a breeder after the time of report. In the event a bull is a non-breeder the situation will be handled by either a replacement, credit or money back. In no case will an adjustment be made for more than the purchase price of that particular bull. No guarantee is given that semen collected from any bull in this sale will freeze or be suitable for artificial insemination. Any breeding guarantee is strictly between buyer and seller.

ACCIDENTS: Although every precaution will be taken to protect the

safety and comfort of buyers, neither sales management, auctioneer, or consignors assume any responsibility in this matter and disclaims any liability, legal, or otherwise, in the event of accident or loss of property.

DELIVERY OPTIONS:

Option A: \$50.00 off per lot if picked up upon sale day.

Option B: Bulls will be delivered free of charge within 200km of Mayerthorpe, as soon as possible after the sale, at the sellers convenience - Over 200km will be arranged at cost.

Option C: Bulls will be kept at the sellers farm at no charge until April 1. A charge of \$3.00 per day will apply after that. Bulls must be picked up by the purchaser, and all bulls returning to sellers farms must be insured.

RIGHTS AND OBLIGATIONS: The above terms and conditions of the sale shall constitute a contract between the buyer and seller and be equally binding to both. Resale of livestock following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected there to are not covered by the terms and conditions of this sale.

Thank You To Our 2014 Buyers!
