At the Agriculture Barn in Mayerthorpe, Alberta

www.swantewittsimmentals.ca
The Bremmekamp Family

Lunch at 12:00 Sale at 1:00 P.M.
At the Agriculture Barn in Mayerthorpe, Alberta

Welcome to our 13th Annual Sale

Welcome to our 13th Annual Sale! As always, we wish to thank all of our repeat customers for their strong support for our cattle and we certainly appreciate you all! This year we have new Fullblood genetics in an outstanding bull we purchased from Brink Genetics in Iowa, Brink Innovator B449. He comes from a very successful breeding program and we are anxious to see the results from his progeny. We also have several bulls from our fantastic Barcelona bull. This is our 6th year using Barcelona, who is co-owned with Wolfe Farms, and is one of the most consistent bulls we have had, with super calving ease and great production. Our own Arnold bull is a thick power bull that has given us the type of bulls and heifers we strive to produce. On our Purebred side we have a great mix of low birthweight bulls from our new KWA Mountain bull, and really productive bulls from our super thick NAC Trustin bull. We have a few power calves from the Skors Crockett bull and easy calving, thick calves from CMS Skyline. We are sure to have a bull that will fit your program and all are semen tested and guaranteed. The 2 year old bulls have been kept specifically for this sale based on a cut-off birthdate.

Our replacement heifer calves are some top heifers that represent all of the sire groups. All of the calves at the sale have been tie broke through a 5 day program, vaccinated with Presponse HM, Express 5, Vision 8 with Somnugen and dewormed with Ivomec. We select our sale calves from our herd of 350 registered cows focusing on soundness, temperament, good udders and longevity. Halter breaking helps to ensure the calves are willing to be handled and we definitely feel it is worth the effort for our customers. Please call or check us out online, or stop by any time for a visit and coffee! We are located on the west side of Shiningbank Lake, between Edson and Whitecourt Alberta.

D: Brink W957

Brink Clarette S627

Brink Miss Ringo S619

We went all the way to Iowa, USA for this bull to source outcross genetics from a unique, long established breeding program. As far as we know, he is the only bull in Canada with these fullblood genetics going back to Brink Ambrose X038. Dark red, lots of meat. His calves are vigorous with loads of growth and we are very pleased with him so far. If you are looking for new genetics, this is the guy.

BRINK INNOVATOR 449B

LOT #1 SWANTEWITT DYNAMITE 53D

Grandsire, Ambrose

Dynamite, what an explosion of a bull on offer here! We're very excited about the Brink Innovator bull calves that we have this year and Dynamite is a pen favorite. This is a pedigree packed with loads of growth on both sides. Anchor D Sting was a solid bodied, goggle eyed, deep red bull known for adding size to his calves. Don't miss these genetics.

Barcelona was one of the high selling sons out of Virginia Ranch Champs Romano that sold in 2011, the natural calf out of their flush cow Barbie 46X and we share him with Wolfe Farms. We have used him successfully for 6 years on both mature cows and heifers and are highly impressed with his calving ease, low birth weights and consistency in color and production. He has large testicles, great color and a superb disposition, something we select for in our cattle. This is one of the best sires we have owned and have sold many bulls from him with great success.

VIRGINIA BARCELONA 46X

LOT #6 SWANTEWITT DAVOLI 31D

When selecting heifers for the sale this year we worked to give a sample of one from every sire of bulls that we have on offer. It's important to us to share some of the great genetics that our herd has benefitted from. With these new Brink Innovator genetics in our herd, Dolphin is a showcase of what his females look like. His offspring carry phenomenal pigmentation and growth and we're really excited about their future in our herd and others.

We were really impressed with the heifers we got off of Skors Crocket. He was a real force to be reckoned with as a bull, with loads of length, thickness and growth. We're looking forward to what his females will do in our herd. Dell was a tough heifer to part with, but with the excellent track record of females in our herd for this line we're sure she'll go out and perform well in her new home.

Terms & Conditions

Funds at par immediately following the sale. The right of ownership shall not pass until after settlement is made. All settlements must be made before any livestock will be released.

ABSENTEE BIDS: Mailed or telephone bids shall be handled in the most confidential manner, if you are unable to attend the sale in person.

PURCHASER RISK: Each animal becomes the risk of the purchaser as soon as it is declared sold.

ANNOUNCEMENTS: Any announcement made from the auction block takes precedence over the printed matter in our catalogue.

CERTIFICATES: Certificates of registry and transfer on each bull shall be provided by the seller to the buyer without charge after settlement has been made.

BREEDING GUARANTEE: The seller warrants clear title to and the right to sell each bull offered for sale. All bulls offered for sale are warranted to be sound; however, the seller is not responsible for damage caused by foreign objects after the bull has been sold, nor sickness that was not apparent at the time of sale. In the event of a dispute, the sellers are responsible only to the extent of the purchase price of the said

animal. We assume no liability, legal or otherwise, to make any further compensation to the buyers.

BREEDERS GUARANTEE: We the sellers have done everything possible to assure you, the buyer, that every bull in this sale will be a breeder. However, should a problem arise, please inform the seller so the problem can be solved. The purchaser shall have six months from the date the bull reaches fourteen months of age to report in writing to the seller that the bull is a non-breeder, providing of course, that the bull has been maintained in satisfactory breeding condition.

Each consignor will have six months to prove the bill a breeder after the time of report. In the event a bull is a non-breeder the situation will be handled either by a replacement, credit, or money back. In no case will an adjustment be made for more than the purchase price of that particular bull. No guarantee is given that semen collected from any bull in this sale will freeze or be suitable for artificial insemination. Any breeding guarantee is strictly between buyer and seller.

ACCIDENTS: Although every precaution will be taken to protect the safety and comfort of our buyers, neither sales management, auctioneer, or consignors assume any responsibility in this matter and disclaims any

liability, legal, or otherwise, in the event of accident or loss of property.

DELIVERY OPTIONS:

Option A: \$50.00 off per lot if picked up on sale day.

Option B: Bulls will be delivered free of charge within 200km of Mayerthorpe, as soon as possible after the sale, at the sellers convenience – over 200km will be arranged at cost.

Option C: Bulls will be kept at the sellers farm at no charge until April 1. A charge of \$3.00 per day will apply after that. Heifers should be taken/delivered on or soon after sale day. It is recommended that the 2 year old bulls are taken/delivered in a timely manner, due to the difficulty in managing these mature bulls after they return to the farm.

RIGHTS AND OBLIGATIONS: The above terms and conditions of the sale shall constitute a contract between the buyer and seller and be equally binding to both. Resale of livestock following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected there to are not covered by the terms and conditions of this sale.
