15th ANNUAL BULL & HEIFER SALE

Saturday, March 9, 2019 at 1:00 P.M.

At the Agriculture Barn in Mayerthorpe, Alberta

www.swantewittsimmentals.com

The Bremmekamp Family

Lunch at 12:00 Sale at 1:00 P.M.
At the Agriculture Barn in Mayerthorpe, Alberta

Welcome to our 15th Annual Sale

Welcome to our 15th Annual Sale! What a busy year this has been for us as we welcomed our first grandbaby into the family with another due right around this sale! This year we have some new AI genetics that have been making waves in the Simmental industry in both Fullbloods and Purebreds. We have new Fullblood genetics in our proven, polled heifer bull, Keato Pld Director's Cut. This is our 8th year using Barcelona, who is co-owned with Wolfe Farms, and is one of the most consistent bulls we have had, with super calving ease and great production. Our Brink, JNR Cool Cat and Calibre bulls are thick power bulls that have given us growth and performance for profitability. On our Purebred side we have a great mix of low birthweight bulls from our KWA Mountain bull and Swantewitt Brave with really productive bulls from our super thick NAC Trustin bull and red power calves from Swantewitt Cayenne. We are sure to have a bull that will fit your program and all are semen tested and guaranteed. The 2 year old bulls are kept specifically for our sales based on birthdate.

Our replacement heifer calves are some top heifers that represent our herd. All of the calves at the sale have been halter broke through a 5 day program , vaccinated with Presponse HM, Express 5, Vision 8 with Somnugen and dewormed with Ivomec. We select our sale calves from our herd of 350 registered cows focusing on soundness, temperament, good udders and longevity. Halter breaking helps to ensure the calves are willing to be handled and we definitely feel it is worth the effort for our customers. Please call or check us out online, or stop by any time for a visit and coffee! We are located on the west side of Shiningbank Lake, between Edson and Whitecourt Alberta.

Bar 5 Hextor

This is our only Hextor calf on offering in the sale this year and Dad was very hesitant to part with him. We are very impressed with this calf for his thickness and depth. It's no surprise coming from this female, her 2 year old last year was our top bull in the sale and she has already shown what a fabulous cow she is. Again going back to the Wanita cow, these females are all moderate framed with awesome udders and great feet.

KEATO PLD DIRECTORS CUT 21D

Bar 5 FF Willie 426Y
D: Keato Brook 8B
Ms BGS Polled Passion 47Z

We purchased 'Keato' from Keato Meadow Simmentals with the goal of acquiring a heifer bull to replace our tried and true Barcelona bull. He's proven that he can do just that! We used Keato on most of our fullblood heifers as well as a few second calvers for the first time in the spring of 2017 and were extremely happy. The heifers calved with minimal difficulty and the calves had lots of vigor. Because of this he went out with all of our fullblood heifers this year. The colouring on his offspring is fairly consistently dark red and he is heterozygous polled.

REFERENCE SIRE

LOT #5 SWANTEWITT FOWLER 191F

Barcelona was one of the high selling sons out of Virginia Ranch Champs Romano that sold in 2011, the natural calf out of their flush cow Barbie 46X and we share him with Wolfe Farms. We have used him successfully for 7 years on both mature cows and heifers and are highly impressed with his calving ease, low birth weights and consistency in color and production. He has large testicles, great color and a superb disposition, something we select for in our cattle. This is one of the best sires we have owned, his daughters are a strong influence in our herd and we have sold many bulls from him with great success.

JNR'S Salton — KWA Redbench 20P

S: JNR Steele 248Z — **D: JNR'S Sue**

JNR'S GRELLI 440P — Anchor "T" Lilli 82K

Cool Cat is a bull selected from JNR's herd from two very predictable cow families; the JNR Steele bull, a producer of many high selling bulls and the prolific Anchor "T" Lilli cow family. Deep red, goggle eyed pigmentation is heavy in his pedigree. We used Cool Cat on a group of over 50 young cows in the spring of 2017 and he has an impressive ability to go out and cover a group of cows, similar to his sire who bred 68 cows one year. His sons on offering are a twist of some different genetics with cow families we love.

Jordan's bull. The only 2 year old Barcelona bull on offering! We can't speak enough to Barcelona's calving ease and excellent females. Our herd has been heavily influenced by Barcelona over the past 8 years. Extra thickness here, with Pasta and Driver in the background. Our Pasta daughters are consistent, heavy milking, thick, high production, sound footed cows.

We select our 2 year old bulls purely on an age cut-off and boy were we disappointed last year when we couldn't sell this guy as a yearling! Ed has the kind of liver red colouring we all strive for, deep and dark. He's a powerhouse of a bull, long, easy moving and many generations of our breeding. Going back to one of our foundational cows, Renaissance 4A, who produced in our herd to the ripe old age of 15.

FULLBLOOD - 2 YEAR OLDS

LOT #28 SWANTEWITT EGAN 186E

1229331

BWT: 112 LBS WW: 870 LBS YW: 1370 LBS DOB: Feb. 9/17

Horned, Fullblood, Full Fleckvieh

	Swantewitt 60K		Swantewitt Gallery 86H

Eastwood has got movie star qualities. A family favourite, he's another bull we were very disappointed couldn't be sold as a yearling last year due to our age cut-off. He has been a standout, big, heavy muscled, thick bull right from a young age. We even considered keeping him in our own herd. He's jampacked with thickness and that fleckvieh muscling going back to Eltano, Bigfoot and Regent Rage.

LOT #30 SWANTEWITT EZRA 205E

1229333

Cayenne is an AI bull who we kept back to use in our own herd for his different genetics. We just hand bred him to a few cows in 2016 and we were so impressed with the calves that he went out with 45 to breed on his own his second breeding season and another 50 this past spring. You can pick a Cayenne calf out of a field due to the impressive growth, size and muscling in both the bull and heifer calves. We calved out his first 2 heifer calves this year and they required no assistance! Last year we kept a son of his to use as a new herd bull and we can't wait to see the calves come off him this season. It's not often that you see this much muscling in a red factor bull and he comes out of a female with perfect feet and a great udder.

BWT: 82 LBS **WW: 760 LBS** **DOB: Jan. 20/18**

Polled, Purebred

S: KWA Mountain 64B
3D Trustin 85A
NAC Trustin 85A
XPP John's Devra
D: Swantewitt Dahlia 41D
LCHMN Bodybuilder 7303F
Swantewitt Sunflower 27S
Swantewitt Flower 35G

Here's a bull calf with the potential for calving ease. Some older genetics in his pedigree going back to our foundation female Flower 35G. This old cow produced in our herd for 12 years and had 9 girls to only 3 boys! The 27S cow is the dam to our Brave 4B bull who has turned out to be a fantastic calving ease bull proven on heifers and young cows. Dahlia 41D, bred back and calved in early January again this year.

PUREBRED YEARLINGS

BWT: 90 LBS WW: 925 LBS DOB: Jan. 25/18

Polled, Purebred, Twin

This may be a twin but looking at his paperwork as well as his picture you'd never know it! Check out that weaning weight. These two calves do not lack performance and growth. They have some interesting genetics with polled, full fleckvieh in the background from Sting and sired by a calving ease bull. The dam has a perfect udder and great feet.

LOT #54 ASHBACHER TUBBY 83F

1259480

BWT: 97 LBS WW: 800 LBS DOB: Jan. 25/18

Polled, Purebred, Twin

Austin's bull. You gotta love when you get two great, healthy calves out of a cow for the price of one! Tubby is just as his affectionately given name suggests, thick. Liver red, he is a similar package to his twin brother. Sound feet and a perfect tight udder on the dam. Sting was consistent at producing females with spectacular udders.

LOT #56 FINDLEY 92F

1238817

BWT: 81 LBS WW: 800 LBS DOB: Jan. 25/18

Polled, Purebred, Twin

Another set of twins from the Mountain bull. The dam, Carly, is a solid black cow with a tiny strip of white on her nose. We halterbroke and showed her as a heifer calf. Carly has turned into a wonderful female and had a daughter out of Dream On in 2017 followed by this set of twins in 2018 and she is bred back to calve in February this year! Her dam and granddam are both solid red, moderate framed cows with nice tight udders.
