## **16<sup>th</sup> ANNUAL BULL & HEIFER SALE**

**Saturday, March 14<sup>th</sup>, 2020 - 1:00pm  
Mayerthorpe, AB Agriculture Barn**

[www.swantewittsimmentals.com](http://www.swantewittsimmentals.com)

*The Bremmekamp Family*

# 16<sup>th</sup> Welcome to our Annual Sale

Lunch at 12:00 pm

Sale starts at 1:00 pm

at the *Agriculture Barn* in Mayerthorpe, AB

Welcome to our 16th Annual Sale! Such a wonderful year with 2 new grandchildren to keep us hopping and Darian and Austin getting married this past summer. This year we have new AI genetics in both Fullbloods and Purebreds. We are excited about the calving ease in the FGAF Guerrero bulls and the performance in the South Seven Adonis sons. We are really pleased with the calves we have had from our polled heifer bull, Keato Pld Director's Cut and Open Range with calving ease potential as well. Our Wolfe Apache, JNR Cool Cat and Brink bulls are thick power bulls that have growth and performance for profitability. On our Purebred side we have a great mix of low birthweight and potential heifer bulls from both AI sires and our own. This is our first year using our Swantewitt Everest 7E bull and we are thrilled with both the heifer and bull calves we have received out of him. We are sure to have a bull that will fit your program and all are semen tested and guaranteed.

Our replacement heifer calves are some top heifers that represent our herd. All of the calves at the sale have been halter broke through a 5 day program, vaccinated with Presponse HM, Express 5, Vision 8 with Somnugen and dewormed with Ivomec. We select our sale calves from our herd of 350 registered cows focusing on soundness, temperament, good udders and longevity. Halter breaking helps to ensure the calves are willing to be handled and we definitely feel it is worth the effort for our customers. If you require any help with a purchase or cannot attend the sale please contact us or one of our order buyers, and DLMS will be onsite. Call or check us out online, or stop by any time for a visit and coffee! We are located on the west side of Shiningbank Lake, between Edson and Whitecourt Alberta.

- Miss Shawacres Heidi 1H
- D: Swantewitt Yahari 9Y**
- Great Guns Ricco 37E
- Swantewitt Gallery 86H
- Swantewitt Patch 11F

One of Jordan's favorite bulls in the pen. He has been an eye catcher since day one, coming from one of our foundation cow families, Gallery 86H, who produced us bull after bull and a few herd bulls too. The dam, Yahari 9Y, has multiple daughters in our herd who are phenomenal and this is her third bull to be put through our sale. She is a female with a perfect udder and perfect feet. There is great fertility, longevity and production in the background of Gangster as well as lots of solid bodied, goggle eyed coloring.

Maternal sister with heifer calf at side

## LOT #2 SWANTEWITT HALDOR 12G

**D: Keato Brook 8B**

Ms BGS Polled Passion 47Z

We purchased 'Keato' from Keato Meadow Simmentals with the goal of acquiring a heifer bull to replace our tried and true Barcelona bull. He's proven that he can do just that! We used Keato on most of our fullblood heifers as well as a few second calvers for the first time in the spring of 2017 and were extremely happy. The heifers calved with minimal difficulty

and the calves had lots of vigor. The coloring on his offspring is fairly consistently dark red and he is heterozygous polled. Even though he has calving ease he does not give up any growth producing thick, stylish calves.

KEATO PLD DIRECTORS CUT 21D

 Lazy RS Miss Brenda FF9N

Apache is sired by the very successful Brink Geronimo bull co owned by Shane and Tony Wolfe. These are outcrossed genetics that bring size and muscling into a herd. Geronimo's claim to fame is his ability to put size in his calves but not give up any other significant qualities at the same time. Apache was used on 45 cows last year and again on the same number this year as he has had no trouble going out and covering a large group of females.

**LOT #20 SWANTEWITT GAZEBO 85G**

Brink Amos S621  
**S: Brink Ambrose X038**  
Brink Clarette S627

Brink Amos S621  
**D: Brink W957**  
Brink Miss Ringo S619

We went all the way to Iowa, USA for this bull to source outcross genetics from a unique, long established breeding program. Dark red, lots of meat. His calves are vigorous with loads of growth come weaning time, when it counts most! If you are looking for outcross genetics, this is the guy. We have a number of daughters in our herd now and have found they have wonderful udders with superb maternal instincts

Swantewitt Lakota 2P  
Swantewitt Tuscany 21T  
Swantewitt Racina 197R

The Brink bull really produces calves that are even in their growth and muscling. Combined here with the Pasta genetics on the dam's side there is power in this package and longevity with a 9 year old dam! The Pasta cows in our herd are consistent females across the board with great feet, heavy muscling and lots of milk, Vienna 99X holds true to this.

## LOT #24 SWANTEWITT GASTON 112G

Bar 5 Glover 854T

Paternal Sister

We kept Fritz for our own use last year and used him on 20 cows. In all honesty we have been extremely happy with him, however his only downfall is that unfortunately he is not full fleckvieh. We are trying to build our herd towards a full fleckvieh base in our fullbloods and so we made the hard decision to part with him. This bull was a stand out as a calf and continued as a yearling and we have no regrets with him. He is proven to breed and come sale day, we will be able to tell you exactly how the calves are. We AI'd a few cows to the Glover bull but aside from Fritz, only had heifers. The heifers have lots of growth and style and we are very happy with them. The dam of Fritz comes from a very consistent cow family that excels at producing both bulls and heifers. They are powerful cows that can put meat on calves and dollars in your pocket.

**JNR'S COOL CAT 531C**  
**BWT: 91 LBS WWT: 889 LBS**  
 Horned, Fullblood, Full Fleckvieh

JNR'S Salton

 JNR'S GRELLI 440P  
 KWA Redbench 20P  
**D: JNR'S Sue**  
 Anchor "T" Lilli 82K

Cool Cat is a bull selected from JNR's herd from two very predictable cow families; the JNR Steele bull, a producer of many high selling bulls and the prolific Anchor "T" Lilli cow family. Deep red, goggle eyed pigmentation is heavy in his pedigree. We used Cool Cat on a large number of cows during his 4 years on our farm, leaving us with some great heifers and some outcross genetics. His sons on offering are a twist of some different genetics with cow families we love.

Swantewitt Tornado 511T

KLC Mr Blk Mac Maker 21N  
**D: Swantewitt Violet 174U**  
Swantewitt Silhouette 77S

Everest is easily one of the best bulls we have ever raised and we are so happy to have kept him as a herdsire. In fact we loved this combination so much that we bred his dam this way 3 times, each time getting a bull calf. Last year we sold a full brother in the sale and the current "G" baby is already a family favorite. Everest has proven to calve well and produce calves with very manageable dispositions. It's no

wonder since he himself is a gentle giant. His dam, Violet, was a cow who could milk and this is something that she has passed down to her daughters in the herd. We feel that this is truly a fantastic combination with the Cayenne bull of muscling, thickness, calving ease, and disposition. Everest is exactly what the cattle industry is striving towards. As a two year old he topped the scale at 2400 lbs.

**LOT #44 SWANTEWITT GRIDLOCK 44G**

What a bull! Darian's bull and one of Jordan's favourites out on pasture. The dam is a very moderate framed, very easy keeping cow with Trustin's signature depth of rib, smooth body and easy walking. We love the power in this guy coming from Cayenne 4C and the catchy eye appeal he's got.

Swantewitt Flower 35G

We used Brave for 4 years on a mix of heifers and first and second calvers but due to an injury he was sold last spring so this will be his last set of calves. We were extremely pleased with his calving ease and the easy going temperaments he produces in his calves. Ever since that first calving season with him, whenever a cow was calving bred to Brave we pretty much just sat back and waited for her to have it problem free! We love how his calves don't give up any production or growth for their low birthweights.

Brave 114G is Austin's bull calf and a full brother to a bull we sold through our sale in 2018. This is an easy going, consistent dam in her production, producing an all around well put together, beefy bull, with an excellent temperament. As Austin says, he's got a tiny white 'money spot' on his forehead! There's performance back in the pedigree coming from the Windsor bull and easy calving from Brave 4B.

This AI calf was catalogued last year, a family favourite, and a bull with loads of interest, however he did not pass his semen test prior to last years sale date and was held back as we do not sell deferred bulls. He comes from a line of females with great dispositions, loads of wavy, thick hair as well as trouble free udders. As a yearling he was a joy to halterbreak, and as a two year old now presents with a very easy going disposition!

We bought this guy from Ashworth's as a heifer bull five years ago and have been extremely pleased with his easy calving and really impressed with the performance he puts into his calves. Mountain weighed in at 2200 lbs just shy of a 3 year old. He is very well balanced with great structure and passes this onto his offspring. We have a number of his daughters in the herd, many with bull calves in our sale now. We find them to be well muscled, yet feminine females with excellent growth. This is a heifer bull that produces like a cow bull.

We have been extremely pleased with our fullblood and purebred female program over the past few years and we are very happy to be able to offer these 20 females in our sale. Every year we struggle with choosing which heifers we will part with since we love all of them so much! This year we have chosen ones that represent the herdsires we are currently using. We select the heifers for our own herd at the same time as our heifer sale ones, and aim to provide our buyers with a great representation of the kind of females we like to build our herd around.

### Terms & Conditions

Funds at par immediately following the sale. The right of ownership shall not pass until after settlement is made. All settlements must be made before any livestock will be released. **ABSENTEE BIDS:** Mailed or telephone bids shall be handled in the most confidential manner, if you are unable to attend the sale in person. **PURCHASER RISK:** Each animal becomes the risk of the purchaser as soon as it is declared sold. **ANNOUNCEMENTS:** Any announcement made from the auction block takes precedence over the printed matter in our catalogue. **CERTIFICATES:** Certificates of registry and transfer on each bull shall be provided by the seller to the buyer without charge after settlement has been made. **BREEDING GUARANTEE:** The seller warrants clear title to and the right to sell each bull offered for sale. All bulls offered for sale are warranted to be sound; however, the seller is not responsible for damage caused by foreign objects after the bull has been sold, nor sickness that was not apparent at the time of sale. In the event of a dispute, the sellers are responsible only to the extent of the purchase price of the said animal. We assume no liability, legal or otherwise, to make any further compensation to the buyers. **BREEDERS GUARANTEE:** We the sellers have done everything possible to assure you, the buyer, that every bull in this sale will be a breeder. However, should a problem arise, please inform the seller so the problem can be solved. The purchaser shall have six months from the date the bull reaches fourteen months of age to report in writing to the seller that the bull is a non-breeder, providing of course, that the bull has been maintained in satisfactory breeding condition. Each consignor will have six months to prove the bull a breeder after the time of report. In the event a bull is a non-breeder the situation will be handled either by a replacement, credit, or money back. In no case will an adjustment be made for more than the purchase price of that particular bull. No guarantee is given that semen collected from any bull in this sale will freeze or be suitable for artificial insemination. Any breeding guarantee is strictly between buyer and seller. **ACCIDENTS:** Although every precaution will be taken to protect the safety and comfort of our buyers, neither sales management, auctioneer, or consignors assume any responsibility in this matter and disclaims any liability, legal, or otherwise, in the event of accident or loss of property. **DELIVERY OPTIONS:** Option A: \$50.00 off per lot if picked up on sale day. Option B: Bulls will be delivered free of charge within 200km of Mayerthorpe, as soon as possible after the sale, at the sellers convenience - over 200km will be arranged at cost. Option C: Bulls will be kept at the sellers farm at no charge until April 1. A charge of \$3.00 per day will apply after that. Heifers should be taken/delivered on or soon after sale day. It is recommended that the 2 year old bulls are taken/delivered in a timely manner, due to the difficulty in managing these mature bulls after they return to the farm. **RIGHTS AND OBLIGATIONS:** The above terms and conditions of the sale shall constitute a contract between the buyer and seller and be equally binding to both. Resale of livestock following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected there to are not covered by the terms and conditions of this sale.
