

Swantewitt Simmentals

17th ANNUAL BULL & HEIFER SALE

Saturday March 13, 2021

Sale will be held on the farm at Shiningbank Lake, AB
Farm Gate Timed Auction through DLMS

www.swantewittsimmentals.com

The Bremmekamp Family

Swantewitt Simmentals 17th Annual Bull and Heifer Sale

Offering 56 yearling bulls, 14 two year olds, and 20 replacement heifers
Farm Gate Timed Auction Sale.

Bidding opens AT 8:00 AM March 12, 2021 and closes at 6:00 PM on March 13, 2021

Welcome to our 17th Annual Sale! We've had a few additions to the family with another daughter for Justine and Mat, and Darian and Austin had a baby girl as well. This year we have a few AI bulls on offer from some older genetics in the fullbloods and some new ones in the purebreds. Lots of calving ease bulls in our purebreds with a couple of Kuntz Sherriff sons as well as some TNT 90 Proof grandson's. We have several homozygous polled purebred bulls on offer as well as quite a few polled fullbloods this year. For growth and muscle check out the Cayenne, LFE RS Lewis and Everest sons in the reds and the Open Range, Apache, and Keato son's in the Fullbloods. We are sure to have a bull that will fit your program and all are semen tested and guaranteed.

Our replacement heifer calves are heifers that represent our herd. All of the calves at the sale have been halter broke through a 5-day program and vaccinated with Prespense HM, Express 5, Vision 8 with Somnugen, and dewormed with Bovimectin as well as Cylence. We select our sale calves from our herd of 350 registered cows focusing on soundness, temperament, good udders, and longevity. Halter breaking helps to ensure the calves are willing to be handled and we definitely feel it is worth the effort for our customers. Due to Covid 19 restrictions our sale will be different this year. The bulls will be staying on farm and available for viewing at any time however we will have them specifically in pens from March 9-13. Feel free to stop by whenever or check out the bulls online. Videos will be posted of each bull on our website at www.swantewittsimmentals.com. The sale will be a farm gate timed auction by DLMS.

Gerd, Donelle, Justine & Mat, Jordan & Randy, Darian & Austin
swantewitt@gmail.com

How to Participate in the DLMS Farm Gate Timed Auction with Extended Bidding:

1. Visit www.dlms.ca, scroll down sale list to find the sale you are interested in bidding on. Click on the sale listing and you will be taken to the Farm Gate Timed Auction Sale page.

2. At the Farm Gate Timed auction site - farmgatetimeductions.ca, click the LOGIN/REGISTRATION button.

First time Farm Gate users:

- First time users will select the REGISTER button. Fill out the registration form for a free user account. Select a username and password for use on all Farm Gate Timed auctions. (please note due to some of the text notification features the Farm Gate Timed Auction Site requires a new account separate from your DLMS Live sale site)

- After you create your Farm Gate account you will receive a txt message with a pin code to verify your account.

- On your first login to Farm Gate Timed auctions we recommend you go to your profile and confirm your notifications are set to YES. This allows the site to send you text and/or email notifications when you are out bid and if there is activity on your favorite lots.

Returning Farm Gate users:

- If you have used Farm Gate Timed auctions in the past simply enter your username and password to continue.

3. How to Bid

Now that you are logged in and your account phone number / email is verified you are able to bid on an upcoming sale. Simply find the lot you are interested in. There are 2 options for bidding on the lot.

- Place Next Bid

- Max Bid Amount - The Max Bid amount is completely confidential from the seller during the sale process. Please note that in some cases a lot value can change very quickly if 2 max bids are placed on the same lot competing against each other.

4. Watch List Feature

If you have items in multiple auctions or a few from the same auction that you want to watch with out having to scroll through the entire list, you can add the lots to your watchlist. On each lot you will see the "eye" button beside the bid button, by clicking this "watchlist" Icon that item is added to your personal watchlist for easy viewing.

5. Sale Ending / Closeout

Most Farm Gate Timed Auction sales close racehorse style with extended bidding. This type of sale allows you as the bidder to change to a different lot within the same sale if the bidding has gone in to extended bidding. Extended bidding allows bidders to compete in lots like a real auction and gives all bidders the same time to make a decision. Always follow the clock to see how much time remains in the sale.

6. Bidding Close & Follow-up

After the clock has gone to "ENDED" the computer will declare the sale finished. Typically within 24 hours of the sale close the sale consignor will contact all winning bidders to arrange payment, transfer of pedigrees and delivery/Pick up of your lot. Or as the winning bidding you can contact the sale consignor / sale manager to confirm payment instructions.

For more info and assistance with bidding contact: DLMS Farm Gate Timed Auctions - Mark Shologan Ph: 780-699-5082

Gerd's Cell: 780-712-2096 | Jordan's Cell: 780-712-3600 | Darian's Cell: 780-218-8866

WEAN DATES: All bull weaning weights (WWT) were taken September 26, 2020 unless otherwise stated. All heifer weaning weights were taken October 11, 2020. YWT means Yearling weight. Full Fleckvieh is 5 generations or more of Fleckvieh Breeding.

SEMEN TESTING: All bulls selling at this sale over the age of 12 months will be semen tested by a certified veterinarian.

We purchased Furtive from Keet's Simmentals for his dark red coloring and homozygous polled characteristic. As a yearling he went out and covered 35 cows on his own with no trouble. Come calving we were pleasantly surprised with his calving ease as he was not purchased for this trait. The calves have lots of vigor and we are excited to see how they turn out in the future. Here is his first crop of bulls and a few heifer calves.

LOT #1 SWANTEWITT JDB HESTON 3H

S: Keato Brook 8B
Ms BGS Polled Passion 47Z

We purchased 'Keato' from Keato Meadow Simmentals in 2017 with the goal of acquiring a heifer bull and he has been just that for us. We find that most heifers calve with minimal difficulty and the calves have lots of vigor. The coloring on his offspring is fairly consistent dark red and he is heterozygous polled. Last year we put a handful of cows with him as well since despite his claim to fame of calving ease, he doesn't give up any growth. He sires thick, stylish calves and his females are often our top selling heifers. We find his son's have phenomenal libido and the daughter's are super maternal.

LOT #7 SWANTEWITT HYPE 89H

 Swantewitt Rebecca 126R

What a great line of cows this is! Happy Hour's dam, Yvie 155Y, going back to the Wanita cow who has had a lasting influence in our herd, has produced many bulls and females for us. We used a maternal brother in our herd, the Swantewitt Calibre bull. Lots of dark red coloring and he is scurred too!

WOLFE APACHE FF 16C

BWT: 97 LBS WWT: 768 LBS YWT: 1193
 TWWW 16C 1176537 | Horned, Fullblood, Full Fleckvieh

S: Brink Lexi X011 Shawacres Jahari 50L
S: Brink Geronimo A310 **D: Lazy RS Miss Zandra 16ZFF**
 Brink Anita Y140 Lazy RS Miss Brenda FF9N

Apache is sired by the very successful Brink Geronimo bull co-owned by Shane and Tony Wolfe. These are outcross genetics that bring size and muscling into a herd. Geronimo's claim to fame is his ability to put size in his calves but not give up any other significant qualities at the same time. Apache was used on 45 cows last year and again on the same number this year as he has had no trouble going out and covering a large group of females.

Jahdal Irene Swantewitt Miss 2A
 Swantewitt Xtasy 229X

We kept Fritz for our own use for a year and then sold him through our sale after using him on 20 cows. In all honesty we were extremely happy with him. This bull was a stand out as a calf and continued as a yearling and we have no regrets with him other than maybe we should not have let him leave the farm. The dam of Fritz comes from a very consistent cow family that excels at producing both bulls and heifers. They are powerful cows that can put meat on calves and dollars in your pocket.

D: Swantewitt Violet 174U

Swantewitt Silhouette 77S

Everest is easily one of the best bulls we have ever raised and we are so happy to have kept him as a herdsire. In fact we loved this combination so much that we bred his dam this way 3 times, each time getting a bull calf. The current "G" baby is already a family favorite and sells this year as a two year old. Everest has proven to calve well and produce calves with very manageable dispositions. It's no wonder since he himself is a gentle giant. His dam, Violet, was a cow who could milk and this is something that she has passed down to her daughters in the herd. We feel that this is truly a fantastic combination with the Cayenne bull of muscling, thickness, calving ease, and disposition. Everest is exactly what the cattle industry is striving towards. As a two year old he topped the scale at 2400 lbs.

CNS Dream On L186
Swantewitt Dreamer 80S
Swantewitt Pearl 22P

Year after year Henrika 28U weans off the largest calf and she's done it again. Henry is the perfect bull. A good birth weight, high weaning weight, great temperament, good coloring, great

testicles; he has everything going for him and he's homozygous polled! If we didn't already have his dad and grandsire we'd probably be keeping him for our own herd. Henrika is 13 years old and still in the early January calving group. Her sire was a fleckvieh bull and we have really enjoyed having her in the herd.

Swantewitt Miss T&M 39N

Cayenne is an AI bull who we kept back to use in our own herd for his different genetics. He comes from a completely outcross dam who had picture perfect feet and a fantastic udder. She always raised off a powerful calf year after year. He has so much growth and muscle for a red factor bull which is what makes him quite desirable in this industry, but he also has quite consistent calving ease. You can pick a Cayenne calf out of a field due to the impressive growth, size and muscling in both the bull and heifer calves. Cayenne topped the scales at 3000 lbs last year.

SWANTEWITT CAYENNE 4C

REFFERENCE

Great Guns Ricco 37E
 Swantewitt Flower 35G
 Swantewitt Stella 35E

Grasshopper was cataloged last year however much to our dismay, he did not pass a semen test in time for the sale and we do not sell deferred bulls. He did pass later in spring. LFE Amber Jack sold through Lewis Farms 2017 bull sale and a few select semen packages were available. We've been really impressed with the growth and performance his calves have, weighing down that scale come weaning. Grasshopper is out of one of our best old cows who passes down an excellent temperament, as seen in her son Swantewitt Brave and all of his progeny. This is an opportunity for a really great bull! We retained a second Amber Jack bull back for use in our own herd this past year. We retained an Amber Jack son for use in our herd and have quite a few calves on the ground that we are very pleased with.

LOT #63

SWANTEWITT GIZMO 308G

D: Swantewitt Violet 174U

CNS Dream On L186
 Swantewitt Silhouette 77S
 Swantewitt Ping 112P

Where do we even start with Gizmo? He's a full brother to our herdsire Swantewitt Everest, a combination we replicated 3 times we loved it so much. This is Violet's final calf as we had to part with her soon after Gizmo's birth. He was partially bottle fed and partially adopted onto one of Violet's daughters who also raised one of our best heifers that year. This gives you a bit of an idea of the bar none milk production in this line of cows. Violet 174U was a purebred black cow with all the best qualities of the good ol' fleckvieh cows we love so much. *Please note Gizmo was pail fed and is very socialized. We are retaining 1/3 semen interest in Gizmo at the buyers convenience and the sellers expense.

LOT #64 SWANTEWITT GOLIATH 234G

*Sire DNA test pending.

We have been very pleased with our fullblood and purebred female program and we are very happy to be able to offer these 20 females in our sale. Every year we struggle to choose which heifers will be retained in our herd and which we will part with since we love them all so much. We try to choose ones that represent the herdsires we are currently using. We select the heifers for our own herd at the same time as the ones for our heifer sales and aim to provide our buyers with a great representation of the kind of females we like to build our herd around.

Terms & Conditions

Funds at par immediately following the sale. The right of ownership shall not pass until after settlement is made. All settlements must be made before any livestock will be released. **ABSENTEE BIDS:** Mailed or telephone bids shall be handled in the most confidential manner, if you are unable to attend the sale in person. **PURCHASER RISK:** Each animal becomes the risk of the purchaser as soon as it is declared sold. **ANNOUNCEMENTS:** Any announcement made from the auction block takes precedence over the printed matter in our catalogue. **CERTIFICATES:** Certificates of registry and transfer on each bull shall be provided by the seller to the buyer without charge after settlement has been made. **BREEDING GUARANTEE:** The seller warrants clear title to and the right to sell each bull offered for sale. All bulls offered for sale are warranted to be sound; however, the seller is not responsible for damage caused by foreign objects after the bull has been sold, nor sickness that was not apparent at the time of sale. In the event of a dispute, the sellers are responsible only to the extent of the purchase price of the said animal. We assume no liability, legal or otherwise, to make any further compensation to the buyers. **BREEDERS GUARANTEE:** We the sellers have done everything possible to assure you, the buyer, that every bull in this sale will be a breeder. However, should a problem arise, please inform the seller so the problem can be solved. The purchaser shall have six months from the date the bull reaches fourteen months of age to report in writing to the seller that the bull is a non-breeder, providing of course, that the bull has been maintained in satisfactory breeding condition. Each consignor will have six months to prove the bull a breeder after the time of report. In the event a bull is a non-breeder the situation will be handled either by a replacement, credit, or money back. In no case will an adjustment be made for more than the purchase price of that particular bull. No guarantee is given that semen collected from any bull in this sale will freeze or be suitable for artificial insemination. Any breeding guarantee is strictly between buyer and seller. **ACCIDENTS:** Although every precaution will be taken to protect the safety and comfort of our buyers, neither sales management, auctioneer, or consignors assume any responsibility in this matter and disclaims any liability, legal, or otherwise, in the event of accident or loss of property. **DELIVERY OPTIONS: Option A:** \$50.00 off per lot if picked up on sale day. **Option B:** Bulls will be delivered free of charge within 200km of Mayerthorpe, as soon as possible after the sale, at the sellers convenience - over 200km will be arranged at cost. **Option C:** Bulls will be kept at the sellers farm at no charge until April 1. A charge of \$3.00 per day will apply after that. Heifers should be taken/delivered on or soon after sale day. It is recommended that the 2 year old bulls are taken/delivered in a timely manner, due to the difficulty in managing these mature bulls after they return to the farm. **RIGHTS AND OBLIGATIONS:** The above terms and conditions of the sale shall constitute a contract between the buyer and seller and be equally binding to both. Resale of livestock following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected there to are not covered by the terms and conditions of this sale.

D & G BREMMEKAMP
Swantewitt Simmentals
56403 Range Road 145
Yellowhead County, AB
T7E 3R4
780-693-2124

Directions to Swantewitt Simmentals:

The farm is located halfway between Edson and Whitecourt on Highway 32. Turn west off the pavement at the blue Shiningbank Lake Park government sign (TWP 562). Follow this around to the west side of lake, staying to the left when the road splits off to the campground. At the T intersection turn north on Range Road 145A and then east 1 mile down the road on TWP 564. Our sign is in the field. Follow it all the way up into the farm.

Thank You to our 2020 Buyers
