BULL & HEIFER SALE**

Saturday March 12, 2022

Sale will be held on the farm at Shiningbank Lake, AB
Farm Gate Timed Auction through DLMS

www.swantewittsimmentals.com

The Bremmekamp Family

Swantewitt & Sage Simmentals 18th Annual Bull and Heifer Sale

Offering 58 yearlings, 15 two year olds, and 25 registered replacement heifers
Farm Gate Timed Auction Sale.

Bidding opens AT 8:00 AM March 11, 2022 and closes at 6:00 PM on March 12, 2022

Welcome to our 18th Annual Sale. As you can see there is a new name this year. Sage Simmentals is Jordan and Justines's new branch off Swantewitt for their herd so watch for their letters in the catalog. The family has continued to expand with Darian and Austin adding another girl, Elsie Jo Ashbacher to their family. Jordan and Randy are also expecting baby #2 in July.

This year we have a great selection of polled full fleckvieh bulls as well as traditional horned fleckvieh bulls sired by our homozygous polled Keet's Furtive herd sire as well as the Open Range calving ease bull. New genetics coming from our Wolfe Fitzroy bull who is proving to be a calving ease sire as well as to have all that thick muscle. We also used a new heifer bull out of FGAF Guerrero and he has a couple sons on offer as well. In our purebred program there are a good variety of homozygous polled red and black sons. Lots of calving ease sons from our 90 Proof heifer bull as well as power and growth bulls from Everest and Cayenne. We also have many of the LFE RS Lewis sons available and find that he calves great on cows without giving up any muscle. Our new red bulls are the SRH Gladiator bull who has many homozygous polled sons out of great, mature females and our homegrown Gibraltar bull sired by the LFE Amber Jack bull who also calves fantastic and produces many dark red calves. We strive to produce bulls to fit a variety of programs and all are semen tested and guaranteed.

Our replacement heifer calves are heifers that represent our herd and breeding program as a whole. All the calves at the sale have been through a 5 day halter breaking program and vaccinated with Prespense HM, Express 5, Vision 8 with somnugen, and dewormed with Bovimectin as well as Cylence or Clean Up II. We select our sale calves from our herd of 350 registered cows focusing on soundness, temperament, udder structure, and longevity as well as calving ease. To us it's more important to have an unassisted calf than an assisted one with a low birthweight. No one has the time to be pulling calves in this busy day and age. That being said each calf is weighed on a digital scale within 24 hours of birth. Halter breaking helps to ensure the calves are willing to be handled and we definitely feel it is worth the effort for our customers. We will once again be having a Farm Gate Timed Auction sale this year as it was very successful last year. The bulls will be available to view on farm at any time, however they will be in pens for the buyers convenience starting Wednesday, March 9th. Feel free to stop by whenever or check out the bulls online. Snacks and coffee will be provided daily! Videos will be posted of each bull on our website at www.swantewittsimmentals.com. The sale will be hosted by DLMS.

Gerd, Jordan & Randy, Justine & Mat, Darian & Austin
swantewitt@gmail.com

How to Participate in the DLMS Farm Gate Timed Auction with Extended Bidding:

1. Visit www.dlms.ca, scroll down sale list to find the sale you are interested in bidding on. Click on the sale listing and you will be taken to the Farm Gate Timed Auction Sale page.

2. At the Farm Gate Timed auction site - farmgatetimedauctions.ca, click the LOGIN/REGISTRATION button.

First time Farm Gate users:

- First time users will select the REGISTER button. Fill out the registration form for a free user account. Select a username and password for use on all Farm Gate Timed auctions. (please note due to some of the text notification features the Farm Gate Timed Auction Site requires a new account separate from your DLMS Live sale site)

- After you create your Farm Gate account you will receive a txt message with a pin code to verify your account.

- On your first login to Farm Gate Timed auctions we recommend you go to your profile and confirm your notifications are set to YES. This allows the site to send you text and/or email notifications when you are out bid and if there is activity on your favorite lots.

Returning Farm Gate users:

- If you have used Farm Gate Timed auctions in the past simply enter your username and password to continue.

3. How to Bid

Now that you are logged in and your account phone number / email is verified you are able to bid on an upcoming sale. Simply find the lot you are interested in. There are 2 options for bidding on the lot.

- Place Next Bid

- Max Bid Amount - The Max Bid amount is completely confidential from the seller during the sale process. Please note that in some cases a lot value can change very quickly if 2 max bids are placed on the same lot competing against each other.

4. Watch List Feature

If you have items in multiple auctions or a few from the same auction that you want to watch with out having to scroll through the entire list, you can add the lots to your watchlist. On each lot you will see the "eye" button beside the bid button, by clicking this "watchlist" icon that item is added to your personal watchlist for easy viewing.

5. Sale Ending / Closeout

Most Farm Gate Timed Auction sales close racehorse style with extended bidding. This type of sale allows you as the bidder to change to a different lot within the same sale if the bidding has gone in to extended bidding. Extended bidding allows bidders to compete in lots like a real auction and gives all bidders the same time to make a decision. Always follow the clock to see how much time remains in the sale.

6. Bidding Close & Follow-up

After the clock has gone to "ENDED" the computer will declare the sale finished. Typically within 24 hours of the sale close the sale consignor will contact all winning bidders to arrange payment, transfer of pedigrees and delivery/Pick up of your lot. Or as the winning bidding you can contact the sale consignor / sale manager to confirm payment instructions.

For more info and assistance with bidding contact; DLMS Farm Gate Timed Auctions ~ Mark Shologan Ph: 780-699-5082

Gerd's Cell: 780-712-2096 | Jordan's Cell: 780-712-3600 | Tony Wolfe's Cell: 780-524-9322

WEAN DATES: All bull weaning weights (WW) were adjusted to September 7, 2021 unless otherwise stated. All heifer weaning weights were taken October 4, 2021 unless otherwise stated. YWT means Yearling weight. Full Fleckvieh is 5 generations or more of Fleckvieh Breeding.

SEMEN TESTING: All bulls selling at this sale over the age of 12 months will be semen tested by a certified veterinarian.

REGISTRATION NOTE:

All cattle will be registered as of sale day. Hair results pending on 3 sires.

Homozygous Polled, Full Fleckvieh

S: NUG Rewind 22C
NUG Mira 552R

D: Keet's Zariel 37Z
Keet's Ureka 35U

We purchased Furtive from Keet's Simmentals for his dark red coloring and homozygous polled characteristic. As a yearling he went out and covered 35 cows on his own with no trouble. Come calving we were pleasantly surprised with his calving ease as he was not purchased for this trait. The calves have lots of vigor and are very consistent. We've calved out the first crop of heifers and love how maternal they are. You'll see we have a lot of son's from him this year and are very happy with the consistency among them.

KEET'S FURTIVE 30F

LOT #1 SWANTEWITT JENGA 24J

BWT: 79 LBS WWT: 780 LBS DOB: JAN 14/21

JSJ 24J - 1360058 | Polled, 15/16 Fleckvieh, Twin

D: Swantewitt Yahari 9Y
Great Guns Ricco 37E
Swantewitt Gallery 86H
Swantewitt Patch 11F

Jenga and Jumanji are a set of twins out of one of the best cows on the farm! Yahari has produced a consistent calf year after year to be registered and either kept as a female in the herd or sold as a bull through the sale. We love her for her perfect udder and easy doing personality. She's never needed a calf pulled and that includes these two. Her cow family was instrumental in the foundation of our fullblood herd and she re-bred this year to calve mid January. This is a consistent package of growth, calving ease, fertility and longevity combined with the polled genetics of Furtive. Oh and Jumanji is a total pet who loves people.

LOT #2 SWANTEWITT JUMANJI 25J

BWT: 77 LBS WWT: 760 LBS DOB: Jan 14/21

JSJ 25J - 1360059 | Polled, 15/16 Fleckvieh Twin

Jack Pine Jetta FF510J

D: Swantewitt Rhianna 195Y
MFI Vision 3078
Swantewitt Saith 213S
Swantewitt Meriah 69M

Here's a bull calf coming from a heavy milking and muscular cow family. Vision was a power bull and you don't get much more meat and muscle than Pasta had. There's a lot of performance in this line and the Rhianna cow was dark red, goggle eyed with perfect feet just like all of our Pasta daughters.

Swantewitt Honey 5U

D: Swanewitt Cleo 56C

Anchor D Sting 184W
Swantewitt Bettina 58Y
Holmen Bettina 212F

Jetson also comes from a line of females where longevity is their thing. The Holmen Bettina cow produced on the farm until she was 16 years old and was always used as a milk cow due to her high milk production. Her daughters have all been great milkers but have retained perfect udder structure and calves never struggled with nursing. Cleo is no exception. These females get the job done and their feet and udders never fail them.

LOT #5 SWANTEWITT JUMPER 216J

We purchased Fitzroy from Wolfe Farms as one of his high selling bulls in 2019. He has performance and muscle coming from the dam but calving ease coming from the sire. So far we are loving the way these calves hit the ground! He calves great and they have loads of vigor. This year he covered over 45 cows! The thickness in Fitzroy is impressive with a smooth topline and thick hind quarters.

D: MS JMC Kerstin K404

Double Bar D Flashy T72R

Great Guns Lilli-Marlen

We purchased Open Range as an older bull since he was a proven heifer bull. We used him on our first and second calvers with great success and he is out of some different genetics with the famous Kerstin K404 female as his dam. The calves have significant growth and length of body. He's an 'oldie, but a goodie', sure to breed longevity into his sons.

Jake is probably the most powerful Open Range son on offer. He has a lot of thickness and growth which he gets from his dam and her Carlsberg genetics. We enjoy seeing what this cow will do for us each year and she did not disappoint with Jake. He will surely go out and add muscle to a herd as well as milk production in the females and he's even got the polled factor going for him.

LOT #28 SWANTEWITT JINGLE 157J

S: Keato Brook 8B
 Ms BGS Polled Passion 47Z

We purchased 'Keato' from Keato Meadow Simmentals in 2017 with the goal of acquiring a heifer bull and he has been just that for us. We find that most heifers calve with minimal difficulty and the calves have lots of vigor. The coloring on his offspring is fairly consistent dark red and he is heterozygous polled. He sires thick, stylish calves and his females are often our top selling heifers. We find his son's have phenomenal libido and the daughter's are super maternal.

LFE RS SFM 608T

We nicknamed this bull "Trestle" after his sire and purchased him in the spring of 2018. Unfortunately he had an injury that year so did not get out breeding until the season was almost finished. However, in 2019 he went out with a large group of first and second calvers. The past 2 years he has covered 50 cows each year with no difficulties. The calves hit the ground easily and require no assistance. His daughters are quite maternal with very nice udder structures.

S: **Swantewitt Cayenne 4C**
Swantewitt Tornado 511T

KLC Mr Blk Mac Maker 21N
D: **Swantewitt Violet 174U**
Swantewitt Silhouette 77S

Everest is easily one of the best bulls we have ever raised and we are so happy to have kept him as a herdsire. In fact we loved this combination so much that we bred his dam this way 3 times, each time getting a bull calf. Everest has proven to produce calves with very manageable dispositions and lots of eye appeal and growth. It's no wonder since he himself is a gentle giant. His dam, Violet, was a cow who could milk and this is something that she has passed down to her daughters in the herd. We feel that this is truly a fantastic combination with the Cayenne bull of muscling, thickness, calving ease, and disposition. As a two year old he topped the scale at 2400 lbs.

SWANTEWITT EVEREST 7E

REFERENCE SIRE

LOT #61 SWANTEWITT JAPAN 135J

BWT: 97 LBS WWT: 710 LBS DOB: JAN 27/21

JSJ 135J - 1352426 | Heterozygous Polled, Purebred

R PLUS Redge 8018U

Cambar Regent Rage 45K

S: WFL Identity 23X

D: Swantewitt Tornado 511T

WFL Red Licious

Swantewitt Mlss T&M 39N

Cayenne is an AI bull who we kept back to use in our own herd for his different genetics. He comes from a completely outcross dam who had picture perfect feet and a fantastic udder. She always raised off a powerful calf year after year. He has so much growth and muscle for a red factor bull which is what makes him quite desirable in this industry, but he also has quite consistent calving ease. You can pick a Cayenne calf out of a field due to the impressive growth, size and muscling in both the bull and heifer calves. Cayenne topped the scales at 3000 lbs in his prime. Our herd consists of many daughters all with great udders, wonderful maternal instincts and good calving ease.

We have been very pleased with our fullblood and purebred female program and we are very happy to be able to offer these 25 females in our sale. Every year we struggle to choose which heifers will be retained in our herd and which we will part with since we love them all so much. We try to choose ones that represent the herdsires we are currently using. We select the heifers for our own herd at the same time as the ones for our heifer sales and aim to provide our buyers with a great representation of the kind of females we like to build our herd around.

Terms & Conditions

Funds at par immediately following the sale. The right of ownership shall not pass until after settlement is made. All settlements must be made before any livestock will be released. **ABSENTEE BIDS:** Mailed or telephone bids shall be handled in the most confidential manner, if you are unable to attend the sale in person. **PURCHASER RISK:** Each animal becomes the risk of the purchaser as soon as it is declared sold. **ANNOUNCEMENTS:** Any announcement made from the auction block takes precedence over the printed matter in our catalogue. **CERTIFICATES:** Certificates of registry and transfer on each bull shall be provided by the seller to the buyer without charge after settlement has been made. **BREEDING GUARANTEE:** The seller warrants clear title to and the right to sell each bull offered for sale. All bulls offered for sale are warranted to be sound; however, the seller is not responsible for damage caused by foreign objects after the bull has been sold, nor sickness that was not apparent at the time of sale. In the event of a dispute, the sellers are responsible only to the extent of the purchase price of the said animal. We assume no liability, legal or otherwise, to make any further compensation to the buyers. **BREEDERS GUARANTEE:** We the sellers have done everything possible to assure you, the buyer, that every bull in this sale will be a breeder. However, should a problem arise, please inform the seller so the problem can be solved. The purchaser shall have six months from the date the bull reaches fourteen months of age to report in writing to the seller that the bull is a non-breeder, providing of course, that the bull has been maintained in satisfactory breeding condition. Each consignor will have six months to prove the bill a breeder after the time of report. In the event a bull is a non-breeder the situation will be handled either by a replacement, credit, or money back. In no case will an adjustment be made for more than the purchase price of that particular bull. No guarantee is given that semen collected from any bull in this sale will freeze or be suitable for artificial insemination. Any breeding guarantee is strictly between buyer and seller. **ACCIDENTS:** Although every precaution will be taken to protect the safety and comfort of our buyers, neither sales management, auctioneer, or consignors assume any responsibility in this matter and disclaims any liability, legal, or otherwise, in the event of accident or loss of property. **DELIVERY OPTIONS: Option A:** \$50.00 off per lot if picked up on sale day. **Option B:** Bulls will be delivered free of charge within 200km of Mayerthorpe, as soon as possible after the sale, at the sellers convenience - over 200km will be arranged at cost. **Option C:** Bulls will be kept at the sellers farm at no charge until April 1. A charge of \$3.00 per day will apply after that. Heifers should be taken/delivered on or soon after sale day. It is recommended that the 2 year old bulls are taken/delivered in a timely manner, due to the difficulty in managing these mature bulls after they return to the farm. **RIGHTS AND OBLIGATIONS:** The above terms and conditions of the sale shall constitute a contract between the buyer and seller and be equally binding to both. Resale of livestock following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected there to are not covered by the terms and conditions of this sale.

G BREMMEKAMP
Swantewitt Simmentals
56403 Range Road 145
Yellowhead County, AB
T7E 3R4
780-693-2124

Directions to Swantewitt Simmentals:

The farm is located halfway between Edson and Whitecourt on Highway 32. Turn west off the pavement at the blue Shiningbank Lake Park government sign (TWP 562). Follow this around to the west side of lake, staying to the left when the road splits off to the campground. At the T intersection turn north on Range Road 145A and then east 1 mile down the road on TWP 564. Our sign is in the field. Follow it all the way up into the farm.

Thank You to our 2021 Buyers
