Simmentals

**20th ANNUAL
BULL & HEIFER SALE**

**Wednesday March 6, 2024
Lunch at 12PM, sale to follow at 1PM MST
Sale will be held on the farm at Shiningbank Lake, AB**

swantewittsimmentals.ca

The Prettiest Drive You'll Have All Bull Sale Season!

The Bremmekamps and Lairds operate on a very large land base, "bushy" and vast pastures with their 350 mother cowherd. These are hardy cattle that forage through the expansive acres of this remote territory, willing to excel in any environment you can throw at them. History shows that your buying dollars go far in this program, which is an integral part of agriculture economic dynamics.

The 2 year old bulls offered are sorted from the prior year's calving deadlines by age, and are wintered in an open area that has the bed pack, feed area and water availability in a quadrant of the large wintering area they live in. After seeing these bulls, the first thing that comes to mind, is they are sound, quiet and good, and the economic value is there! Think of how many more cows they will breed, aside from the fact they have never been offered for sale prior!

The coming yearlings bulls, to use the redundant phrase, that many claim, are "fed to last", is true here. They still possess adequate pounds and of course the maternal values that the Simmental breed provides. There's no hiding that they won't be the heaviest bulls to sell in 2024, but you'll own them for a long time!

Don't overlook the 30 replacement heifers on offer, right from the heart of the herd, and sisters to the sale bulls. These Simmental females always make great cows, whether you want to keep them as registered or decide to breed them another way!

We are available to bid and/or buy on your behalf if you can't attend personally. We encourage you to be with us sale day but in the event you can't, please feel free to call any of our cell phones listed for absentee buying options. It's conflict free as we don't own cattle ourselves so we are never bidding against you and also at no charge to you. We would enjoy hearing from you either way.

Regards,

Jaymes E. (Jay) Good

Auctioneer: Ward Cutler

Ringmen: Darren Paget and Robert Lind

Sales Day Phones:

Jay Good	403-556-5563
Glen Norton	780-542-0634
Darren Paget	403-323-3985
Cody Coupland	403-877-0799

DELIVERY OPTIONS: Bulls will be delivered free of charge within 200 km of the farm as soon as possible after the sale at the sellers convenience. Over 200 km will require part way meeting locations or a cost. Bulls can be kept at the sellers farm at no charge until April 1, 2024. A charge of \$6.00 per day will apply after that. Heifers should be taken/delivered on or soon after sale day. It is recommended that the 2 year old bulls are taken/delivered in a timely manner, due to the difficulty in managing these mature bulls.

BREEDERS GUARANTEE: Standard terms set forth by the Canadian Simmental Association, with the exception where any animal is subject to any hormonal or surgical reproduction techniques after the sale., the guarantee shall be null and void.

FLECKVIEH STATUS: Full Fleckvieh fullblood will have a minimum of 5 generations or more in their pedigree. It is recommended if further research is required to contact the Canadian Simmental Association and no assumption of fleckvieh heritage will be guaranteed by the consignor or CSA.

SEMEN TESTING: All bulls selling at this sale over the age of 12 months will be semen tested by a certified veterinarian.

FERTILITY AND HEALTH: All bulls and heifers have been under a full herd health program under the guidance of Edson Veterinary Clinic. All bulls have passed a Breeding Soundness Exam prior to the sale.

WEANING DATE: All yearling weaning dates were taken on September 20, 2023 for the bull calves and September 28, 2023 for heifers.

INVOICING: Invoices will be sent to the email address provided. Please advise if not received within 3 days of the sale, please phone Transcon Head Office 403-638-9377

Swantewitt & Sage Simmentals 20th Annual Bull and Heifer Sale

Offering 56 yearlings, 18 two year olds, and 29 registered replacement heifers.

Lunch at 12 PM, sale to follow at 1 PM MST

Welcome to our 20th Annual Sale. What an interesting year it has been around the farm. We started the spring off with some pretty major weather scares and evacuation orders due to fires approaching very close to our land. Luckily the community really pulled together during these stressful and trying times to help support all the people at risk of losing homes and infrastructure. We then moved into some major flooding in later spring but after that things seemed to smooth out. Crops were quite good and cattle prices have continued to remain strong making the industry appear brighter than it has in awhile.

We decided to make a few changes to our sale this year. You'll note that the date has changed to a Wednesday on the farm with lunch. We are also very excited to be switching back to a live auction with a video sale and to be teaming up with the crew at Transcon! We have worked with Transcon for the past few years in the Lone Stone Farms Invitational Female Sale and love the way they've supported our female bred heifer program. We really appreciate being able to bring them on board with our bull and heifer sale now as well! As far as our program goes, we continue to strive to produce the same high quality, affordable bulls for the commercial herd that we have built our herd around for years.

This year in our Fleckvieh offering we have a selection of calving ease bulls from our Haiti, Director's Cut, and Wolfe Fitzroy sires as well as quite a few polled fleckvieh bulls sired by our homozygous polled Benchmark and Golf bulls. There are a couple of neat AI calves on offer and we have many Sully sons with heavy pigmentation and lots of muscle.

In our purebred program there are a good variety of homozygous polled red and black sons. A few calving ease sons from the NUG Truffle bull as well as power and growth bulls from Major League and Rattler. Our homegrown Gibraltar bull sired by the LFE Amber Jack bull has a few bulls in the sale and he also calves fantastic and produces many dark red calves. We strive to produce bulls to fit a variety of programs and all are semen tested and guaranteed.

Our replacement heifer calves are heifers that represent our herd and breeding program as a whole. All the calves at the sale are vaccinated as newborn calves with Nasalgen, an intranasal vaccine, and then boosted in spring with Pyramid + presponse and Vision 8 with somnus. They are boosted again in fall with Presponse HM, Express 5, Vision 8 with somnugen, and dewormed with Bovimectin and Clean Up II. We select our sale calves from our herd of 350 registered cows focusing on soundness, temperament, udder structure, and longevity as well as calving ease. To us it's very important to aim for an unassisted calf with good vigor that hops up and nurses quickly. No one has the time to be pulling calves in this busy day and age or fighting with them to get colostrum during those first critical hours. Every one of our calves is weighed on a digital scale within 24 hours of birth.

Once again our sale will be a live video auction on the farm. The bulls will be available to view on farm at any time and will be in pens for the buyers convenience on Tuesday and Wednesday. Feel free to stop by whenever or check out the bulls online. Snacks and coffee will be provided daily with lunch on sale day. Videos will be posted of each bull on our website at www.swantewittsimmentals.com and can be found online on Transcon and the DLMS websites.

We hope to see you there!

Gerd Bremmekamp, Jordan & Randy Laird | swantewitt@gmail.com

 S: SOUTHSEVEN MR ADONIS 96Z D: BLACK GOLD MS FLORA 84B
 SOUTH SEVEN MISS 70S BLACK GOLD MS FLORA 84B

Fullblood, Full Fleckvieh: Elevation has made waves in the industry. We Al'd a few cows to him and have been very satisfied with these dark red, thick, soggy calves that are loose-hided with loads of hair. The calves we've had from him have nice tempers and his popularity in the industry speaks to his success.

 D: **SWANTEWITT FLAMINGO 19F**
 TECH BULLSEYE 128B
 DT EILY 364D
 DIAMOND T PIPER 360Y

Fullblood, Full Fleckvieh, Non Dilutor, Sire Verified: Gerd and Jordan's bull. Loyal has caught our eye since he came out of the cow last year! He's showy and the typical red, goggle eyed Elevation son with nice muscling but not too large of frame size. His dam is a very well put together female who has done great in our herd and has a nice udder with good feet. We purchased the DT Eily cow through the Lone Stone Sale quite a few years ago and we have been quite happy with the Flamingo 19F cow. A full brother sold in our sale last year.

 SWANTEWITT MS BIGFOOT 23X
 SWANTEWITT SYLVIA 32S

Fullblood, Full Fleckvieh, Non Dilutor, Sire Verified: Here's a bull loaded up with muscle. The dam is thick thick thick with lots of milk and the heavy muscling of the Pasta bull in her genetics. She's dark red with goggles just like Leviathon. The cows in her pedigree walked our pasture for years all with wonderful feet and good fertility. We contemplated keeping this guy for a calving ease bull since his birthweight is so nice and low and he's 7 generations of our own breeding on the maternal side.

Fullblood, Full Fleckvieh: Now here's a cow that is turning out to be unstoppable in our herd. Friday is dark red with goggles and a beautiful udder. We have a gorgeous daughter in our calving pen this year and she's put a bull through our sale in the past. Always calves in January and does a good job on her calves each year. Lunar carries that low birthweight with him and nice calving ease.

MATERNAL BROTHER

SWANTEWITT EVVY 181E

Fullblood, Full Fleckvieh, Non Dilutor, Sire Verified: Levitate is another bull who is going to make an awesome herdsire. The Evvy cow really can produce a bull calf. Check out the picture of her two year old who sold through our sale last year. She's a nice, moderate framed female with a tight udder and good walking feet and she puts everything into her calves. There's calving ease potential in him from the Barcelona bull who we used with Tony Wolfe on heifers for 7 years. There's also all the meat and muscling from the Spartacus bull. Levitate is really quite a neat combination.

DLSL SHANIA FF37S MS BGS POLLED PASSION 47Z

Polled, Full Fleckvieh: We purchased Director's Cut from Keato Meadow Simmentals in 2017 with the goal of acquiring a heifer bull. He turned out to be a really neat combination of calving ease with muscle, growth, and performance. He walked our herd until spring 2023. Director's Cut sires thick, stylish calves and his females are often our top selling heifers. We find his son's have phenomenal libido and the daughter's are super maternal.

6

Scurred, Fullblood, Full Fleckvieh, Non Dilutor: Link starts off our potential heifer bulls. His dam is a Furtive daughter and even though Furtive doesn't have a high calving ease score, he sure did calve very well for us on young cows. We would have even considered using him on heifers he calved so well. His daughters have growth and milk and Jeanine is no exception. She is a combination of Furtive's style and muscle coming from the Bonnie cow. Bonnie is another older cow who is still calving for us each year. Overall Link has a lot of calving ease genetics in his pedigree and a lot of potential.

SWANTEWITT BRITTANY 109B

Fullblood, Full Fleckvieh, Non Dilutor: A 3/4 brother to the lot before him, you've really got to appreciate the weaning weights coming off these first calvers. As producers we really can't ask for more than this. Linx has a lot of muscle and growth with high performance. His dam is proving to be highly productive and he will be too. His other side is solid coloured with no white stripe.

SWANTEWITT WANITA 129W

Polled, Full Fleckvieh, Non Dilutor: Lane's cow family really stands out in our herd. We have a few sisters to the Janet 282J female and sold another half sister in the Lone Stone sale this fall. We always say that the Wanita cow was amazing at producing daughters. She worked in our herd for 11 years until age caught up with her and had perfect feet and a trouble free udder right up until the end. These were traits she passed on to her daughters. This is a very predictable, profitable cow line and you really can't go wrong with Lane!

 VIRGINIA BARCELONA 46X
 SWANTEWITT ALANNA 58A
 SWANTEWITT YORDAN 144Y

Homozygous Polled Fullblood, Full Flekvieh: Now Lentil definitely has the making of a heifer bull. He has that nice low birthweight with a great CE score. There's the Open Range bull and Barcelona who were all proven heifer bulls in his pedigree. The Alanna 58A cow was one of our top females in the herd and always weaned off one of the largest bulls or heifers each fall. We have 3 of her daughters working for us in the herd and they do not disappoint. I cannot say enough about the productivity and growth in these females. Lentil is homozygous polled so you'll never have to worry about horns on his offspring.

 SWANTEWITT LEORA 62L

34

Polled Fullblood, Full Fleckvieh: Luke is truly a high performance bull. He had one of the top weaning weights coming off his dam this fall. The Dora cow also goes back to the Jordan cow family as mentioned earlier who was known for longevity and performance. He's polled and he has a pile of potential coming his way. The Dora cow has contributed so much to our herd and has been a very profitable female for us over the years. Classic moderate frame and great feet with a great udder.

EPD's: CE: 4.3 BW: 6.1 WW: 81.2 M: 38.3 MCE: 2.8 MWWT: 78.9

Fullblood, Full Fleckvieh, Non Dilutor: We've absolutely loved Lager since the day he hit the ground. He has so much thickness and length. We have 3 sisters from the Molson bull before we sadly lost him at a young age and you can easily pick them out in the heifer pen. They are all dark red coloring with so much thickness through their hind quarters and nice dispositions. Lager's dam is from one of our highest performing cow families and they are all still walking the pasture today all the way up to Bunny. The udders on these females are exceptional and so is their fertility. He's a bull that has longevity written all over him!

SWANTEWITT GALLERY 86H

Polled Fullblood, Full Fleckvieh: Korea comes from a tried and true cow family. Brazil has produced lots of bulls and heifers for us just like her dam. These cows are so easy to have in the herd that you wish you had 100 just like them. All with perfect, very nice udders that a calf gets on no problem and no difficulty calving. She's getting up there in years but Brazil is still on the farm today. She's solid brown with big goggles just like her son. Longevity is the pinnacle that this cow family balances on.

DOUBLE BAR D NO SECRET25U

Homozygous Polled Purebred: Major League was an off age bull we purchased from Swan Lake Simmentals in 2021. We love his length and muscling. His daughters are calving like a dream this year for the first time. Major puts lots of growth in his calves and he moves out well with good sound confirmation. We find he has a really nice frame size.

SWANTEWITT FANTASIA 38F

54

Homozygous Polled Purebred, Non Dilutor: Here's one of Jordan's bulls. He's dark red in color and nice and thick. I purchased the Fantasia 38F cow as a heifer calf through one of the farm's annual sales years ago and she has been such an awesome addition to my herd. I've added quite a few females from her to the Sage brand and this cow never disappoints me. Her dam was a big, thick, deep red, soggy cow with loads of depth and muscle who worked on the farm up until last year. Combined with the Major League bull there should be no end to the thickness and muscle in Limitless.

SWANTEWITT VIOLA 117U

SWANTEWITT MAMBASA 13M

55

Scurred Purebred: Landslide was the heavyweight champion coming off the cow this fall. Year after year his dam produces at the top of the herd. He already has so much thickness and growth just as a yearling. His pedigree goes back to some fleckvieh genetics on the maternal side and the muscling carried through for generations. If you're looking for a bull to put pounds on your calves, look at Landslide.

Homozygous Polled Purebred: Keystone wraps up the bull section of the catalog. He's a deep, flat sided bull also packed with muscle from a very productive cow. His dam still maintains excellent feet at her age and is a solid brown cow. Again there's some good growth and performance in his pedigree and he's homozygous polled!

 SWANTEWITT REV 198 R

Our heifer calves are the pride and joy of our farm and what we are most proud of. We feel that over the years we have built our female program to focus on wonderful maternal instincts, docility, good feet and trouble free udders.

Every year we struggle to choose which heifers will be retained in our herd and which we will part with since we love them all so much. We try to choose ones that represent the herdsires we are currently using. We select the heifers for our own herd at the same time as the ones for our heifer sales and aim to provide our buyers with a great representation of the kind of females we like to build our herd around.

This year we have a fairly equal fullblood to purebred ratio and can say with certainty that we would happily keep every one of these heifers for our own use.

Terms & Conditions

TERMS - The terms of the sale are cash, cheque, e-transfer, or wire and are due at the time of sale, unless other arrangements have been made between buyer and seller prior to the sale. Transcon reserves the right to charge interest at a rate of 2.5% per month on overdue accounts. The right of property shall not pass until after settlement is made. Transcon Livestock Corp. reserves the right to require a certified cheque as settlement before releasing any sale cattle. Should any purchaser fail to settle for their purchase Transcon Livestock Corp. reserves full power to resell the animal to the best advantage either publicly or privately, without further notice. Any loss arising from such resale together with keep and all other expenses shall be payable by the defaulter. Transcon Livestock Corp and/or the Auctioneer shall have the right to refuse bids from anyone who has a previous record of default in payment or who has not made proper credit clearance prior to the sale with the owner or Sale Managers.

BID - No private sales will be allowed except as otherwise provided for in the terms and conditions. No by-bidding will be permitted.

SALES TAXES - Applicable sales taxes will be charged on semen, embryos, and trucking fees (if listed), respective to the home province of the buyer, not the seller.

DISPUTES - In cases of disputes, bidding will be reopened between the parties involved. If no further bid is made the buyer will be the person from whom the auctioneer accepted the last bid. The auctioneer's decision in such matters will be final.

PURCHASER'S RISK - Each animal becomes the risk of the purchaser as soon as sold. Animals will be cared for at the purchaser's risk for a reasonable length of time.

INSURANCE - Each animal becomes the risk of the purchaser at the time of sale and should be insured. Animals returning to the seller's farm must be insured.

US BUYERS - There is an additional charge (approximately \$300.00 US dollars) that will be applied to each animal purchased. This covers documentation, vet inspections/testing required to export. This cost does not include transportation or brokerage which is the responsibility of the buyer.

CATTLE PICTURES AND INFORMATION PROVIDED - The images in this catalogue are believed to be accurate representations of the individual animals and the information contained in this catalogue is provided by the seller and believed to be true and accurate. Transcon Livestock Corp. and catalogue designers/producers assume no responsibility if the images and/or information as received have been altered or is inaccurate.

ANNOUNCEMENTS - All announcements from the auction block will take precedence over the printed matter in the catalogue. Buyers are therefore cautioned to pay attention to any such announcements.

CERTIFICATE OF REGISTRY - A registration/recording certificate issued by the applicable breed association and duly transferred will be furnished to the buyer of each animal after settlement has been made. It is the responsibility of the buyer to determine the acceptance of this certificate in any other association.

SHIPPING - Assistance will be given in making shipment after the sale but no risk is assumed by the Sales Management or Seller. Expenses incurred are the responsibility of the purchaser. Purchasers are requested to furnish shipping instructions when making settlement.

BREEDERS GUARANTEE - As per applicable Canadian Breed Association Breeding Guarantee guidelines. Copies are available at the sale settlement desk to be picked up by the buyer at any time. In no event shall the seller be responsible for reimbursing more than the purchase price. **EXCEPTION TO GUARANTEE** - In cases where the animal is subjected to any hormonal or surgical reproduction techniques after the sale, the guarantee shall be null and void.

HEALTH - It is the buyer's responsibility to determine health requirements for importing any animal into his province or state. Transcon Livestock Corp. assumes no responsibility for the health status of any animal in the sale.

EMBRYO & SEMEN - Full settlement must be made before release is done and shipping arrangements should be done within 30 days of the sale unless arrangements made between buyer and seller prior to the sale. Shipping arrangements and costs are the expense of the purchaser once release has been given.

ACCIDENTS - Although every precaution will be taken to protect the safety and comfort of buyers, neither the Sales Management, auctioneer, consignors, or Association assumes any responsibility in this matter and disclaims any liability legal or otherwise in the event of accident or loss of property.

RIGHTS AND OBLIGATIONS - The above terms and conditions of the sale shall constitute a contract between the buyer and the seller and be equally binding to both. Resale of animals following purchase in this sale shall constitute a separate transaction and the rights and obligations of the two parties connected thereto are not covered by the terms and conditions of this sale.

TRANSCON LIVESTOCK CORP. IS AGENT ONLY - It is to be clearly understood that Transcon Livestock Corp. is only acting as a medium between buyer and seller and is not in any way responsible for any failure on the part of either party to live up to his obligations. Neither does Transcon Livestock Corp. assume any financial obligations to collect or enforce collection of any monies between parties. Any legal action that may be taken, in exceptional cases, must be between buyer and seller.

How to find us

Follow the directions below

or scan the QR code with your phone to open the directions in google maps.

The farm is located halfway between Edson and Whitecourt on Highway 32. Turn west off the pavement at the blue Shiningbank Lake Park government sign (TWP 562). Follow this around to the west side of lake, staying to the left when the road splits off to the campground. At the T intersection turn north on Range Road 145A and then east 1 mile down the road on TWP 564. Our sign is in the field. Follow it all the way up into the farm.
